To whom it may concern,

If you're considering the Lean Six Sigma Black Belt course, I highly recommend learning under Dr. Kidwai. His teaching style is clear, engaging, and grounded in real-world application. He brings both deep expertise and genuine passion to the material, making complex concepts easy to understand. You'll walk away not only with a certification, but with skills and insights that will empower you to truly make a difference in your field. It's an investment in yourself and your leadership that's well worth it.

Sincerely,

A handwritten signature in black ink, appearing to read 'Shardel Jackson'. The signature is fluid and cursive, with a long horizontal stroke extending to the right.

Shardel Jackson, MSN, MPH, RN, CLSSBB
Director, Quality Services
